

7 Real Estate Investments in Africa

1

Take the traditional path and invest in move in ready property to rent out for a profit.

2

Think out the box and invest in uncompleted or a shell of a property. Complete the build and use it for rental income

3

Use real estate investment for social impact by building housing that offers mixed-income rental units

4

Create a community of affordable housing units that locals can afford to rent. This is a hot investment encouraged by the government

5

Building your dream property or other housing is the most popular option in Africa

6

Invest in building student housing / hostels in the local community for private or public institutions

7

Commercial real estate is a viable option as warehousing and factory facilities are in high demand
